OUI Inc. at Japan Cornea Conference 2024

From February 8 to 10, 2024, members of OUI Inc. including Dr. Shimizu, participated in the Cornea Conference 2024 held at Congress Square Haneda, Tokyo, and exhibited our equipment.

In addition to our Smart Eye Camera slit lamp model that is currently being developed, we also displayed a model that can observe the fundus and various parts of the eye. This peaked the interest of many doctors. A great number of ophthalmologists were interested in what we had to offer. Many of them were surprised at how beautifully they could observe the anterior and posterior segment of the eye during the demonstration; very well received!

OUI Inc. will continue to collaborate with domestic and international medical professionals to develop innovative ophthalmic diagnostic models using our Smart Eye Camera!

We look forward to seeing you at the 128th Annual Meeting of the Japanese Ophthalmological Society, to be held at the Tokyo International Forum from April 18 to 21, where OUI Inc. will be giving a presentation!

- Japan Cornea Conference 2024

LET'S COLLABORATE! FEEL FREE TO CONTACT US!

Through our Smart Eye Camera, OUI Inc.'s vision is to reduce blindness in the world by 50% by 2025 by delivering appropriate diagnoses to patients who have not been able to receive eyecare.

So far, we have conducted various pilot projects in more than 20 countries around the world, including Asia and Africa, in cooperation with local ophthalmologists, NGOs, medical institutions, and international organizations.

The internationally recognized CE marking is expected to further increase the recognition and confidence in the Smart Eye Camera, not only in the European market but also in Asia and Africa.

In our current corporate stage, the pilot projects are necessary to understand the obstacles of developing countries where our product may flourish to help the maximum number of people in need.

That is why we ask for help, offer for future collaboration from all of you, our possible partner, to get the Smart Eye Camera delivered all across the globe to get the proper diagnoses and treatment that all people deserve!
