Presentations at the 2024 One ASEAN Startup Award and HOOC3

On June 25, 2024, Dr. Rohan from OUI Inc. gave a presentation at the 2024 One ASEAN Startup Award held in Kuala Lumpur, Malaysia. This event, organized by the Economic Research Institute for ASEAN and East Asia (ERIA), aims to recognize the most innovative and outstanding startups in the ASEAN region.

As a startup with innovative technology in the medical field, OUI Inc. was chosen as one of the 5 finalists among hundreds of applicants in the "Impact" category (the other one being "AI" category). Each finalist was invited to perform a 5-minute pitch presentation on their organization and their activities. Although OUI Inc. failed to reach the next round, we had many new encounters with local doctors and engineers. This gave us opportunities to plan and promote research in rural areas of Malaysia, as well as other parts for South East Asia

From June 28 to 30, 2024, OUI Inc.'s CEO Dr. Shimizu and Dr. Rohan presented as invited lectures at The 3rd Ho Chi Minh City Ophthalmology Conference (HOOC3) held in Ho Chi Minh City, Vietnam. Although this conference is a domestic conference in Vietnam, our connection with Vietnam has been strong for a while and we had the opportunity to further strengthen it

At this conference, Dr. Shimizu presented on anterior segment diagnosis AI, and Dr. Rohan discussed his eye screening in Nepal. Additionally, Dr. Duong Minh Nguyet from iVision, who is conducting joint research with OUI Inc., presented the results of a clinical study using the Smart Eye Camera with a talk titled "Investigate cataracts with a smart facial imaging device."

OUI Inc. is committed to the innovation and dissemination of medical technology through conferences and events both domestically and internationally. We will continue to develop new technologies and conduct research with medical professionals worldwide, striving to improve the quality of ophthalmic care globally through our Smart Eye Camera.

Organizations Involved:

- The 2024 One ASEAN Startup Award
- The 3rd Ho Chi Minh City Ophthalmology Conference (HOOC3)

LET'S COLLABORATE! FEEL FREE TO CONTACT US!

Through our Smart Eye Camera, OUI Inc.'s vision is to reduce blindness in the world by 50% by 2025 by delivering appropriate diagnoses to patients who have not been able to receive eyecare.

So far, we have conducted various pilot projects in more than 20 countries around the world, including Asia and Africa, in cooperation with local ophthalmologists, NGOs, medical institutions, and international organizations.

The internationally recognized CE marking is expected to further increase the recognition and confidence in the Smart Eye Camera, not only in the European market but also in Asia and Africa.

In our current corporate stage, the pilot projects are necessary to understand the obstacles of developing countries where our product may flourish to help the maximum number of people in need.

That is why we ask for help, offer for future collaboration from all of you, our possible partner, to get the Smart Eye Camera delivered all across the globe to get the proper diagnoses and treatment that all people deserve!
