OUI Inc. Presented and Exhibited at APAO 2025 in India

From April 3 to 6, 2025, OUI Inc. participated in the 40th Asia-Pacific Academy of Ophthalmology Congress (APAO 2025), held in New Delhi, India. Our CEO, Dr. Shimizu, orthoptist Mr. Nishimura, and Dr. Rohan each delivered academic presentations. while our team showcased the Smart Eye Camera at our corporate booth—facilitating valuable exchanges with ophthalmologists and healthcare professionals from around the world.

The topics presented by OUI Inc. were as follows:

Dr. Shimizu

“Utilizing Artificial Intelligence for Cataract Diagnosis From Portable Slit-Lamp Video Images”

Presented on the use of AI to diagnose cataracts from videos captured by a portable slit-lamp device.

Mr. Nishimura

“Communication in Hospitals Using a Smartphone-Based Portable Slit-Lamp Microscope with Image Filing Capability”

Shared research on in-hospital communication using a smartphone-based portable slit-lamp with image filing functions.

Dr. Rohan

“Overcoming Barriers: Portable Eye Care in a Nursing Home Setting”

Discussed practical applications and challenges of providing portable ophthalmic care in nursing home environments.

Our Smart Eye Camera garnered strong interest during the exhibition. Many healthcare professionals visited our booth, and several doctors either purchased the device or expressed serious intent to adopt it. . Through product demonstrations, we engaged in meaningful conversations and felt a strong sense of global support and enthusiasm for our mission.

OUI Inc. remains committed to strengthening international partnerships and advancing ophthalmic care worldwide.

LET'S COLLABORATE! FEEL FREE TO CONTACT US!

Through our Smart Eye Camera, OUI Inc.'s vision is to reduce blindness in the world by 50% by 2025 by delivering appropriate diagnoses to patients who have not been able to receive eyecare. So far, we have conducted various pilot projects in more than 20 countries around the world, including Asia and Africa, in cooperation with local ophthalmologists, NGOs, medical institutions, and international organizations. The internationally recognized CE marking is expected to further increase the recognition and confidence in the Smart Eye Camera, not only in the European market but also in Asia and Africa. In our current corporate stage, the pilot projects are necessary to understand the obstacles of developing countries where our product may flourish to help the maximum number of people in need. That is why we ask for help, offer for future collaboration from all of you, our possible partner, to get the Smart Eye Camera delivered all across the globe to get the proper diagnoses and treatment that all people deserve!
