Eisuke Shimizu, CEO of OUI Inc., Selected Among Global Top 10 for JCI TOYP 2025 — Medical Innovation Category

On November 8, 2025, Eisuke Shimizu, CEO of OUI Inc., was selected as one of the world's Top 10 Outstanding Young Persons in the Medical Innovation category by JCI TOYP (Ten Outstanding Young Persons of the World). The formal award ceremony was held at the JCI World Congress 2025 in Tunis, Tunisia.

Representing Japan in this year's JCI TOYP, Eisuke Shimizu is the only Japanese recipient selected in the Medical Innovation category among the global Top 10.

Since its inception in 1938 by the junior chamber organization Junior Chamber International (JCI), JCI TOYP has annually honored ten young individuals who demonstrate outstanding achievement in the areas of societal contribution, innovation, and global impact. Past recipients have included world-renowned figures such as John F. Kennedy, Bill Clinton, Henry Kissinger, Elvis Presley, Jackie Chan and Wayne Gretzky. The award is internationally recognized as a major accolade celebrating youth leadership and inspiring future global leaders.

During the award ceremony, OUI Inc.'s achievements were presented to attendees from around the world. On stage, in a moment of symbolic pride, he raised the Japanese flag alongside the Japan representative delegation of JCI.

OUI Inc. regards this honour as a new starting point. Leveraging its Smart Eye Camera platform, remote diagnostics (SEC) and AI technologies, OUI Inc. will continue to drive ophthalmic innovation—particularly in emerging markets and regions with limited access to eyecare. We are committed to contributing to the establishment of sustainable medical services worldwide.

LET'S COLLABORATE! FEEL FREE TO CONTACT US!

Through our Smart Eye Camera, OUI Inc.'s vision is to reduce blindness in the world by 50% by 2025 by delivering appropriate diagnoses to patients who have not been able to receive eyecare. So far, we have conducted various pilot projects in more than 20 countries around the world, including Asia and Africa, in cooperation with local ophthalmologists, NGOs, medical institutions, and international organizations. The internationally recognized CE marking is expected to further increase the recognition and confidence in the Smart Eye Camera, not only in the European market but also in Asia and Africa. In our current corporate stage, the pilot projects are necessary to understand the obstacles of developing countries where our product may flourish to help the maximum number of people in need. That is why we ask for help, offer for future collaboration from all of you, our possible partner, to get the Smart Eye Camera delivered all across the globe to get the proper diagnoses and treatment that all people deserve!
